|---|---|
| **Client** | Finglas Horse & Pony Project |
| **Appointment** | Mid 2001 |
| **Contract Value** | 3 million euro |
| **Services** | Initial Design Services |

A community project on the edge of Dublin with stabling, indoor arena and public facilities. The design form follows the flow of food and wastes within the complex. Reed beds will deal with some of the waste from both the centre and to clean the stream of industrial waste.
